Adding Value To Your Team

The Bachelor of Commerce, Management Economics and Finance program is designed to give students an understanding of business problems in the areas of industrial organization and finance.

Management Economics and Finance integrates the analytical orientation of economics with the practical tools of business management, marketing and accounting.

The integration of economic theory with business courses prepares students for careers in banking, investment analysis, corporate management, accounting, law, and public policy.

University of Guelph Advantage

Students who excel in Management Economics and Finance are problem solvers. The major is designed to train students in logic to help them develop advanced critical thinking skills. Students also use statistical software to apply their knowledge to particular discipline areas on a practical level.

The objective of the Management Economics and Finance program is to produce decision makers, critical thinkers and well-rounded employees who can apply theory to everyday business situations.

Our co-op process responds to your needs. Employers can post, hire and interview throughout the semester and our students are available for 4 or 8 month work terms. The Recruit Guelph hiring tool makes hiring Guelph co-op students easy!

Student Strengths

• Strong analytical and problem solving skills, developed as students complete extensive research projects
• The ability to work effectively in teams, developed as a result of work on group assignments
• Effective leadership and communication skills, developed through education, extra-curricular and work experiences
