Adding Value To Your Team

The School of Hospitality & Tourism Management, Bachelor of Commerce degree program, was established in 1969 in order to provide a business program that would meet the needs of the hospitality industry.

The Hotel & Food Administration (HAFA) major allows students to combine general business and management courses with the specialized needs of the hospitality industry through courses in lodging management, tourism, food and beverage control, food science, and law along with the flexibility of additional elective courses for students with specific interests.

Guelph continues to offer Canada's pre-eminent program in hospitality management.

University of Guelph Advantage

The HAFA program was cited in a Federal Human Resources Study as a model Co-op program that matches course delivery with industry needs.

The School of Hospitality & Tourism Management has strong industry ties through its advisory board, alumni, advancement management training, and research sponsored by industry.

Work terms are 12 months in length beginning May each year. This allows students to contribute more substantially and employers to realize greater benefits, than traditional 4-month work terms.

Student Strengths

- Students are eager to learn, flexible to be cross-trained and keen to rotate in departments as needed
- An excellent grounding in hospitality subject areas such as purchasing, control systems, and lodging operations
- An appreciation of the fundamental importance of customer relations and its relationship to profitability
