

Bachelor of Bio-Resource Management

Food Industry Management

ABOUT THE PROGRAM

The Food Industry Management co-op major bridges food science and business. Combining business practice and industry and market analysis with the science of food safety, processing and food composition. Food industry management graduates ensure the success of food businesses.

Professionals in food industry management have broad career options with the ability to focus on either the processing or business side of the industry. They understand the impact of changing a single ingredient on both a product's flavour and the company's bottom line. This program is offered and administered by both the Department of Food Science and the Department of Food, Agricultural and Resource Economics. *New for Fall 2018, the Food Industry Management major is pending approval by the Ontario Universities Council on Quality Assurance and the Ministry of Advanced Education and Skills Development

WHY CO-OP?

As a co-op student, you will gain relevant work experience, build professional networks, and develop essential interpersonal skills needed to succeed in the workplace, all while getting paid and earning your university degree. Guelph's co-op program is unique due to the exceptional level of support provided, including a co-op preparatory course, and a personal connection with Co-op Coordinators to assist you during the employment process, and access to senior student mentors.

COURSE SEQUENCING

In the Food Industry Management co-op program, you will participate in four co-op work terms in addition to eight academic semesters throughout your five years at the University of Guelph.

YEAR	FALL	WINTER	SUMMER
ONE	Academic	Academic	Off
TWO	Academic	Academic	Work
THREE	Academic	Academic	Work
FOUR	Work	Work	Off
