Bachelor of Science

Food Science

ABOUT THE PROGRAM

Food Science is an applied discipline that draws on all areas of science: chemistry, physics, engineering, biology and nutrition. Food scientists are involved in the transformation of raw agricultural products into various consumer products. A tremendous amount of technical training is required to develop and formulate safe, nutritious foods, manufacture and package them, preserve their quality and supply the consumer with a wide variety of menu items and snack foods. In our new state-of-the-art facilities, you will gain these technical competencies and will apply this knowledge to industrial processes.

WHY CO-OP?

As a co-op student, you will gain relevant work experience, build professional networks and develop essential interpersonal skills needed to succeed in the workplace, all while getting paid and earning your university degree. Guelph's co-op program is unique due to the exceptional level of support provided, including an online preparatory course, a personal connection with a Co-op Co-ordinator to assist you during the employment process, and access to senior student mentors.

COURSE SEQUENCING

In the Food Science Co-op program, you will participate in three or four co-op terms in addition to eight academic semesters throughout your five years at the University of Guelph. This sequencing is viewable below:

YEAR	FALL	WINTER	SUMMER
ONE	Academic	Academic	Off
TWO	Academic	Academic	Work
THREE	Academic	Academic	Work
FOUR	Work	Work	Off
FIVE	Academic	Academic
