

Adding Value to Your Team

The Bachelor of Commerce, Management Economics and Finance (MEF) program is designed to give students an understanding of business problems in the areas of industrial organization and finance.

Management Economics and Finance integrates the analytical orientation of economics with the practical tools of business management, marketing and accounting.

The integration of economic theory with business courses prepares students for careers in banking, investment analysis, corporate management, accounting, law, and public policy.

University of Guelph Advantage

Students who excel in Management Economics and Finance are keen problem solvers. The major is designed to train students in logic to help them develop advanced critical thinking skills. Senior students also use statistical software to apply their knowledge on a practical level.

The objective of the Management Economics and Finance program is to produce thoughtful, educated decision makers who are well-rounded employees able to apply theory to everyday business situations.

Our co-op process responds to your needs. Employers can post, hire and interview throughout the semester and our students are available for 4 or 8 month work terms. The **Experience Guelph** hiring tool makes hiring Guelph co-op students easy!

Student Strengths

- Excellent critical thinking, analytical and problem-solving skills, developed as students complete extensive research projects
- A strong ability to collaborate effectively in teams, developed as a result of group assignments and projects
- Highly effective leadership and communication skills, enhanced through education, extra-curricular involvement and work experiences
